

Extension of Submission of Lease Agreements

The deadline for the submission of the "Lease Agreements ", main lease agreements or amendments, for leases that were in force until June 12, 2020, has been extended until February 15, 2021 by decision of the Administrator of AADE.

According to the decision, the old lease agreements that were concluded before 2014 and were in force on June 12, 2020 have been tacitly extended or have some of their terms changed and have not been submitted electronically to myTAXISnet should be submitted. The declaration is submitted without sanctions and includes all the information that was valid on June 12, 2020.

The owners will have to submit the declaration of termination of each lease which has been terminated by 12/06/2020. If these declarations are not submitted, then the lease agreements will be considered as still valid.

Lease agreements (principals and amendments) must be submitted electronically on myTAXISnet by the end of the month following the commencement of the lease or the date on which the modification takes place.

In case of termination of the lease, the lessor is obliged to declare its termination by the end of the month following its termination, otherwise the lease agreement is considered to be in force.
